

Powerful Mobile Security and Theft Protection for Android and iOS Devices

Find Your Lost or Stolen Device from Anywhere

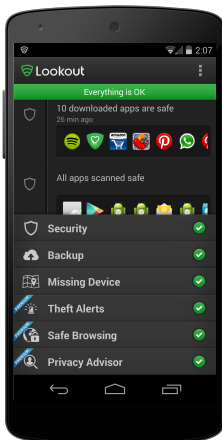

Find My Phone: Locate a lost or stolen device on a map from Lookout.com

Scream: Make your device sound a loud alarm so you can find it nearby even if you left it on silent.

Signal Flare: Automatically saves your device's location when your battery gets really low, giving you the best possible chance to find your lost device - even if it runs out of battery.

Remote Lock and Wipe: Lock and Wipe your device from Lookout.com to block access to your information.

Theft Alerts: Get an email with a photo and the location of your device when we notice behavior that could mean it has been stolen.

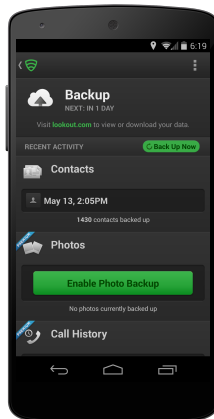

Secure Your Device Against Digital Threats

Advanced Security: Backed by the world's largest mobile threat database, Lookout automatically protects against malware, spyware and adware downloaded from apps, files and software updates.

Safe Browsing: Stay safe from phishing attacks and malicious sites by scanning every link and webpage you visit.

Privacy Advisor: Protect your privacy by quickly viewing a detailed list of the apps on your device and what personal data each app can access.

Protect Your Pictures and Personal Data

Backup: Automatically back up your contacts, photos and call history and download them from Lookout.com to transfer to a new device.

Get Complete Protection for your Mobile Device with **Lookout Premium**.

Lookout Premium provides the best protection for your mobile device, and includes Safe Browsing, Privacy Advisor, Theft Alerts, Photo and Call History Backup, and Lock & Wipe. Premium is available for \$2.99 / month or \$29.99 / 2 year.
