

## Kevin Mahaffey

Co-Founder and CTO

---

Kevin is an entrepreneur and technologist with a background in security, wireless, and web applications. He is the CTO of Lookout, which he co-founded in 2007 with John Hering and James Burgess. Kevin is responsible for driving Lookout's technology to protect people from current and future threats while keeping the product simple and easy to use. He started programming when he was 8 years old and it has been a love affair ever since. Kevin is a frequent speaker on security, mobile and other topics, and has recently spoken at Black Hat Technical Security Conference, DEFCON, Yahoo! Security Week, and Microsoft's Bluehat Security Conference. Kevin graduated Summa Cum Laude with a degree in Electrical Engineering from the University of Southern California.
